

Amendment to the Specification

Please replace the paragraph at page 10, lines 12-14 of the present application with the following amended paragraph:

In certain cases it may also be desirable to remove a volume of nitrogen from line 5 out into a line ~~[[24]]~~ 27 and bring this together with the gas in line 22, which is led to a gas turbine in unit 23 in order to control the combustion and generation of heat in this.
